

MINI VAULT SILVER S2 (£4,000 cash rating)

The Mini Vault Silver is ideal for the safekeeping of cash and valuables. Whilst the manufacturing techniques used provide a robust unit for domestic and commercial applications, its internal fittings are those you would expect to protect delicate valuables, such as watches, jewellery and electronic tablets. This protection is achieved by utilising an anti-bludgeon laser cut door (to prevent prying and chisel attack) mounted on concealed hinges and hardened steel plates to protect all vulnerable areas. Both key and electronic lock are tested and certified to EN14450-S2.

- Manufactured with a 4mm body and 8mm anti-bludgeon flush fit door, with 25mm hardened steel locking bolts.
- Available in 4 sizes, plus 2 deposit options.
- A choice of key or electronic locking mechanisms, the electronic options offers changeable codes, low power warning and LED indicators.
- All models have felt lined walls, thick foam base pad, jewellery shelf* and battery operated motion sensitive light.
- Mini Vault 3 has been designed to accommodate a till or jewellery draw of a width 410mm.
